

Repositories in Science & Technology: Preserving Access to the Record of Science

Agenda

A *One-Day Workshop Co-sponsored by CENDI and NFAIS and Hosted by FLICC*
Library of Congress, Mumford Room, 101 Independence Avenue, SE, Washington, DC 20540
November 30, 2011, 9:00am - 4:30pm

9:00am - 9:15am: **Welcome and Opening Remarks** -- *Jill O'Neill, NFAIS*

9:15am - 10:00am: **Opening Keynote** – *Clifford Lynch, Director, Coalition for Networked Information*

The opening session will provide an overview of the current repository landscape with examples of the different types that currently exist. It will address the differences between libraries, repositories and archives.

10:00am - 10:15am: **Break and Networking Opportunity**

10:15am - 11:45am: **Case Studies: Experiences and Lessons Learned ~ Part 1**

Moderated by Jerry Sheehan, Executive Board, International Council of Scientific and Technical Information and Assistant Director for Policy Development, National Library of Medicine

This session will highlight three different types of repositories – their objectives, challenges and lessons learned.

Speakers: Jane Greenburg, Professor, and Director of The SILS Metadata Research Center, Dryad; Dr. Ian Bruno, Head of External Applications at Cambridge Crystallographic Data Centre; and Dr. H. K. Ramapriyan, Asst. Project Manager, Earth Science Data & Information System Project, NASA Goddard Space Flight Center.

11:45am - 12:30pm: **Lunch** (Box lunch will be provided)

12:30pm - 1:30pm Case Studies: Experiences and Lessons Learned ~ Part 2

Moderated by Lynn Willis, Content Development Manager, PsycINFO.

This session will highlight two different types of repositories – their objectives, challenges and lessons learned.

Speakers: Sean Thomas, Product Manager, Dspace@MIT; and Ed Sequeira, Project Manager from NLM, PubMed Central

1:30pm - 2:00pm: **Case Study: A Repository in Development**

Moderated by Don Hagen, Associate Director, Office of Product and Program Management, NTIS

This session will focus on the importance of requirements gathering as the basis for a successful repository project, supporting the creation of success criteria, criteria for decision making about technologies, and system implementation.

Speaker: Leslie Johnston, Chief of Repository Development, Library of Congress.

2:00pm - 2:15pm: **Break and Networking Opportunity**

Over ➡

2:15pm - 3:15pm: Ancillary Tools
Moderated by Sharon Jordan, Assistant Director for Program Integration, DOE-OSTI, and CENDI Deputy Chair

This session will focus on DataCite and ORCID and how they will help in the identification, archiving, preservation, and linking of information.

Speakers: Laine Farley, Executive Director from the California Digital Library, DataCite; and Brian Wilson, VP and Chief Architect at Thomson Reuters, ORCID

3:15pm - 4:15pm: Repositories and the Future of Scientific Research: Issues to be Resolved, Closing Keynote –
Judith Russell, Dean of University Libraries at the University of Florida
Dr. Christopher Greer, Associate Director, Information Technology Laboratory, NIST

The closing session will include a proposal for interoperability followed by a wrap-up and facilitated discussion of the key issues regarding interoperability, information sharing and collaboration across repositories. Consideration will be given to what inter-sector cooperation is most important and how it can be encouraged.

4:15pm – 4:30pm Conclusions and Next Steps
Bonnie C. Carroll, CENDI Secretariat Executive Director
